

# Strongboy

## Specifications

The Strongboy offers a new dimension to the construction industry:

- **Simplistic & Robust**
- **Cost Effective**
- **Efficient**

The Strongboy is used as an adaption to an Adjustable Steel Prop to provide support to brickwork and other construction support structures.

Due to the Strongboy's robust dynamics, it can be fitted between courses on a double-skin, brick cavity wall from either side. Therefore providing a cost effective, efficient and safe construction component.

The Strongboy is zinc plated, this ensures a long life and low maintenance product.

All SCP Strongboys are manufactured in accordance with ISO 9001:2000 quality system accreditation.

PRODUCT CODE	DESCRIPTION	WEIGHT (kgs)
5-260-STRONGBOY	Strongboy	5.8

### Technical Information

- Max loading: 340kg.
- Max working height: 3m.
- Max spacing: 900mm.
- Patent registered.
