

## QF02 – FORGECO SCP QUALITY POLICY V2.2

The objective of the Forgeco SCP Quality Policy [and SCP's parent company, known to the industry hitherto as Scaffold & Construction Products Limited], is to assure the quality of the products and services supplied to all their customers, both current and future potential customers to be. It is also its objective to ensure that quality requirements are determined and satisfied, throughout all phases of contract performance.

The quality management system is subject to review towards continual improvement. Business objectives will be established and reviewed on a regular basis. Provision is made for the early detection of applicable requirements, deficiencies, trends, or conditions, that could lead to unsatisfactory product quality and so enable the company to take effective corrective and preventive actions, which is both timely and effective.

The Company will maintain a documented and controlled business plan, as part of the quality policy.

Customer needs and expectations are identified and are regularly assessed, to ensure the products and services provided are fully accepted by the management team with respect to business objectives.

The control of quality in our manufacturing and systems is vested to every employee, and as such they collectively support the achievement of the Company objective of the supply of *Right First-Time* products to agreed schedules.

Forgeco Ltd and SCP accepts that the necessary resources will be provided to meet and maintain the systems, processes and procedures issued to maintain a quality system, that satisfies the requirements of ISO 9001:2015, including such training or instruction, as may be required, to ensure competent personnel are employed at all levels to support the achievement of the Company objectives.

**C. Reeves**  
Managing Director
